

MediaOne Broadband Upgrade

Client:
CH2MHILL
100 Inverness Terrace East
Englewood, CO 80112

Project Start:
November, 1998

Project Completion:
Ongoing

Project Features:

- Planning
- Scheduling
- Training/Facilitation

Technology:

- Primavera Project Planner
- MS Access
- MS Excel

Project Description:

S&R, as a member of the **CH2MHILL** team, is providing program management services to MediaOne in support of the company's national upgrade of its hybrid fiber optic/coaxial cable (HFC) network. This upgrade to Broadband technology improves traditional cable service and enables next-generation products and services.

S&R lends daily support to local and regional team leaders in the development of Program priorities and schedules by planning, monitoring and analyzing key considerations, such as:

- ✓ Permitting requirements of various federal, state and local entities
- ✓ Public relations with customers
- ✓ Utility interfaces in congested Right-of-Way spaces
- ✓ Coordination of transportation issues at major road and rail crossings
- ✓ Just-in-Time delivery of materials
- ✓ Availability and skill of contractors to install various technologies
- ✓ Sale and connection of the Broadband service
- ✓ Productivity and production
